

Luxury Condominium Residences in Oakville

BUILDING AMENITIES

- This intimate, boutique-style building design is inspired by its surroundings and true to the existing neighbourhood. Designed by ATA Architects, the elegant, modern design and thoughtfully curated colour palettes come together to create the perfect picture.
- The four-story construction, with three floors of residences, includes a beautifully landscaped rooftop terrace with green roof areas, a commercial-grade barbecue and outdoor kitchen. Comfortable seating and loungers enhance a space perfect for entertaining and sunbathing.
- Residents will appreciate the large multi-function social space complete with a full state-of-the-art kitchen, a full-height bar with seating and plenty of space for hosting special occasions.
- With sustainability in mind, Bevco Homes has carefully selected all materials, which include double glazed-low "E" argon gas windows, energy-efficient Kohler toilets and fixtures, as well as Energy Star rated Wolf and Sub Zero appliances.
- Residents will enjoy both short-term bicycle parking, and long-term, secure bicycle storage as well as individual, caged secure storage units.
- Landscaping at ground level has been carefully selected to soften the streetscape and complement the surrounding area.
- The building will offer a state-of-the-art fully automated parking system by Klaus Parking. This will be the first condominium residence in Oakville to offer this revolutionary parking technology. Each residence will have access to one parking spot.
- The location is walking distance to the Downtown Oakville shopping and dining district, Kerr Village, Fortinos, Lakeside Park, Tannery Park, walking trails, and the new harbour development of Shipyard Park, WH Morden Public School as well as many eateries and amenities.

Bevco Homes provides the services of a professional interior design consultant. They will assist purchasers in the completion of their interior colour and finishing selections which will be chosen from the builder's decor package selections.
